

Are Blueprints for Global Governance and Sustainable Development Fulfilling Biblical Prophecy?

Sixbert SANGWA, PhD • February 10, 2024

Dear Brothers and Sisters in Christ,
In these tumultuous times, it is imperative that we, as followers of Christ, remain vigilant and discerning of the forces at work in our world. Today, I wish to delve deeper into the hidden agenda behind the United Nations' Sustainable Development Goals (SDGs) by examining how they align with the purported goals of the Illuminati, the teachings of Alice Bailey, and what Scripture reveals about such agendas.

Alice Bailey, a prominent occultist and founder of the Lucifer Publishing Company (now [Lucis Trust](#)), outlined a vision for a "New World Order" in her writings. In her book "[The Externalization of the Hierarchy](#)," she spoke of the need for a global governing body to usher in an era of spiritual enlightenment and planetary unity. Bailey's teachings have deeply influenced various organizations, including the United Nations, where she herself claimed association and influence.

Likewise, the purported goals of the Illuminati, a secretive group believed to wield immense influence over world affairs, bear striking similarities to the objectives outlined in Bailey's writings. These goals, including the manipulation of education systems, the control of media and communication channels, and the erosion of national sovereignty, align with the broader agenda of global governance espoused by Bailey. For a deeper understanding of the purported goals of the Illuminati, I recommend exploring credible online resources that discuss the history and influence of secret societies. While discernment is essential when navigating such topics, examining multiple perspectives can help paint a clearer picture of the forces at work in our world.

Now, let us examine how Agenda 21 (and its extension, Agenda 2030) align with both the Illuminati's purported goals and Bailey's teachings. First of all, let's consider, for example, the emphasis on "sustainable development" in Agenda 21. While presented as a noble aspiration, this pillar serves to advance the agenda of global governance by centralizing control over resources and imposing top-down regulations on nations and individuals. Under the guise of environmental protection, Agenda 21 seeks to justify intrusive policies that undermine national sovereignty and individual liberties. Furthermore, let's explore the SDGs in greater depth:

- Sustainable Development Goal 4: Quality Education:** The Illuminati purportedly seek to manipulate education systems to shape societal beliefs and values in line with their agenda. Similarly, Alice Bailey emphasized the importance of education in advancing her vision for a New World Order. SDG 4 aims to ensure inclusive and equitable quality education for all, but critics argue that it could be used to promote ideologies that undermine traditional values and promote a globalist worldview.
- Sustainable Development Goal 5: Gender Equality:** Alice Bailey's writings often touched upon the importance of gender equality in achieving spiritual enlightenment and planetary unity. The Illuminati purportedly seek to manipulate societal structures, including gender norms, to advance their agenda. SDG 5 promotes gender equality and empowerment of all women and girls, but critics argue that it could be exploited to promote ideologies that undermine traditional family structures and societal norms.
- Sustainable Development Goal 13: Climate Action:** Bailey's vision for a New World Order included environmental sustainability as a key component of global governance. The Illuminati purportedly seek to exploit environmental concerns to justify greater control over resources and populations. SDG 13 calls for urgent action to combat climate change and its impacts, but critics argue that it could be used to justify intrusive policies that infringe upon national sovereignty and individual freedoms in the name of environmental protection.
- Sustainable Development Goal 16: Peace, Justice, and Strong Institutions:** Bailey's vision emphasized the need for a global governing body to maintain peace and justice on a planetary scale. The Illuminati purportedly seek to establish institutions that consolidate global power and control. SDG 16 aims to promote peaceful and inclusive societies for sustainable development, but critics argue that it could be used to justify the erosion of national sovereignty and the establishment of supranational institutions with unchecked authority.
- Sustainable Development Goal 17: Partnerships for the Goals:** Bailey's vision of a New World Order emphasized the importance of global cooperation and partnership in achieving planetary unity. The Illuminati purportedly seek to establish networks of influence to advance their agenda. SDG 17 calls for strengthened global partnerships to achieve the SDGs, but critics argue that it could be used to promote agendas that undermine national sovereignty and individual freedoms under the guise of international cooperation.

Similarly, Agenda 2050, an extension of Agenda 2030, outlines a vision for sustainable development and social progress beyond the year 2030. While details of Agenda 2050 are still emerging, it is clear that its objectives align with those of Agenda 21 and Agenda 2030, furthering the agenda of global governance and control under the guise of sustainable development.

But how does this relate to biblical prophecy? Scripture warns us about the rise of a charismatic world leader who will deceive many and establish a global reign of tyranny and oppression. This figure, commonly referred to as the Antichrist, is prophesied to emerge in the end times. In Revelation 13, we read about the Antichrist's rise to power and the establishment of a New World Order: "*.....And the dragon gave him his power and his throne and great authority... And all the earth marveled and followed the beast.*" - [Revelation 13:2-3](#).

The New World Order, as it is commonly understood, is synonymous with the prophesied reign of the Antichrist. It represents a global system of governance characterized by deception, control, and the suppression of individual freedoms. Current world events, including the agendas promoted by organizations like the United Nations through initiatives such as the Sustainable Development Goals, are paving the way for the fulfillment of these prophecies.

The alignment of global agendas with the conditions prophesied for the rise of the Antichrist should serve as a warning sign for believers. As we witness the erosion of national sovereignty, the promotion of ideologies contrary to biblical truth, and the consolidation of power in the hands of a few, we must remain vigilant and discerning.

Scripture exhorts us to "*be sober-minded; be watchful. Your adversary the devil prowls around like a roaring lion, seeking someone to devour*" ([1 Peter 5:8](#)). We are called to test all things against the truth of God's Word and to stand firm in the faith, even in the face of deception and opposition. Therefore, dear brothers and sisters, let us not be complacent or deceived by the allure of worldly power and authority. Instead, let us cling to the promises of God and remain steadfast in prayer, knowing that our ultimate hope and security are found in Him alone. May we be like the wise virgins in [Matthew 25](#), who kept their lamps burning as they eagerly awaited the bridegroom's return. Let us stay alert, for the day of the Lord is drawing near.

God bless you all.
